sanjay26hegde@gmail.com | +91 8296921475 | Bengaluru, India | [linkedin.com/in/sanjay-hegde26](https://www.linkedin.com/in/sanjay-hegde26) | [Sanjay's Portfolio](#)

I bring 3+ years of experience in end-to-end software development for a Fortune 50 client, complemented by a Gold Medal–winning MBA in Product Management. My focus lies in translating user insights into scalable AI-powered SaaS solutions, shaping product roadmaps, and driving execution through cross-functional collaboration. I specialize in aligning business objectives with technical delivery to create products that deliver measurable impact. *I'll make sure our product doesn't just hum - it sings.*

EDUCATION

Great Lakes Institute of Management (Gold Medalist)	Chennai (2025)
PGPM (Product Management and Marketing)	3.51/4.0
Siddaganga Institute of Technology	Tumkur (2020)
Bachelor of Engineering (Mechanical)	8.55/10

WORK EXPERIENCE

INFOSYS Product Owner - Consultant	(May '25 – Present) Bengaluru
- Drove market research and competitive analysis for “Live Engineering” product, enabling 2 AI-driven features on the product roadmap that aligned with evolving B2B enterprise needs across 3 geographies. - Owned product roadmap, planning 2-week sprints and clearly articulated product vision resulting in hitting 95% goals by Q3 2025. - Translated complex user needs and technical requirements into actionable insights, directly contributing to winning 2 enterprise deals worth US\$800,000 in Q1 2025.	
REDACTO Associate Product Manager (Internship)	(Apr '25 – May '25) Remote
- Built and launched MVP of an Agentic AI–powered Vendor Risk Management SaaS product, automating 60% of compliance assessments and cutting review time, saving compliance teams 50+ hours per assessment. - Translated user needs into 30+ user stories and 3 PRDs, streamlining sprint execution and improving backlog clarity, while conducting competitive analysis across 4+ SaaS platforms to identify 3 major market gaps.	
ACCENTURE Software Engineering Senior Analyst	(Nov '20 – Apr '24) Bengaluru
- Led end to end Agile product lifecycle for a \$10M+ US Insurance Claims software, managing 5 engineers across 20+ sprints, translating business goals into 100+ backlog features, and achieving 95% on-time delivery. Partnered with 6+ senior business stakeholders, guiding delivery through Agile ceremonies and bridging dev and business teams, maintaining a 99.9% SLA and reducing requirement rework by ~20%. - Improved product experience NPS by 15% by analyzing UX data and API performance key metrics, diagnosing friction points, and driving enhancements that reduced user pain points. Designed and implemented dashboards leveraging PostgreSQL data, reducing manual reporting effort by ~30% and enhancing backend visibility, which helped the client monitor performance and delivered business value within client budget. Orchestrated CI/CD pipelines across multiple applications, automating release workflows and reducing manual intervention by 70%, improving software lifecycle efficiency and reliability. Spearheaded a POC to migrate from IBM WebSphere to Open Liberty, delivering a 30% performance improvement by driving continuous optimization and modernization efforts. Enhanced data integration by migrating custom secret management to HashiCorp Vault, securely integrating it into 20+ Java applications and 5 Shell-based applications, strengthening system reliability and security.	

SKILLS

Product Management:	Product Strategy, POC, AI Prototyping (v0, Replit), Hypothesis Testing, Prioritization, GTM, Design Thinking
Analytics:	Prompt Engineering EDA, Regression, clustering, NLP (Python), Market Analysis, A/B Experiments
Software Development:	REST APIs, Java, CI/CD and DevOps, SQL, UI/UX Design, RAG and LLMs
Tools and Platforms:	Figma, Jira, Miro, Confluence, Amplitude, Tableau, Gitlab, MS Office, Azure

ACADEMIC PROJECT

AR/AP payments product – PayPal (Link to Prototype)
- Led user research by analyzing product usage data and conducting 6+ in-depth SMB interviews, uncovering 5 key workflow pain points and developing empathy maps that informed product vision for financial tools in India. Designed and delivered a high-fidelity clickable prototype, translating research insights into a tangible solution that was adopted for internal showcase at PayPal, while applying RICE prioritization to shortlist 8 MVP features.
